

**Notice of Review of the Annual Report for  
The City of Groton Stormwater Management Plan**

The Stormwater Management Plan (SWMP) for the City of Groton was developed to meet the requirements of the Connecticut Department of Energy & Environmental Protection (DEEP) General Permit for the Discharge of Stormwater from Small Municipal Separate Storm Sewer Systems (MS4s), issued January 20, 2016 and effective July 1, 2017.

An Annual Report summarizing the progress made implementing the SWMP during 2022 will be available for the 30-day public review period beginning February 15, 2023. At this time, we are soliciting questions and comments from the public. The public review and comment period will end March 17, 2023.

You can view a copy of the Annual Reports and the SWMP at: <http://cityofgroton.com/government-services/departments/public-works/engineering/phase-ii-stormwater-permitting-plan/> . A hard copy of the report will also be available at the Public Works Office at 295 Meridian Street in Groton, during regular business hours, Monday through Friday from 7:00 a.m. to 3:30 p.m.

Questions and comments can be directed to:
